Technical Requirements

IMPORTANT: We are all about artistic freedom – as long as you are not doing anything that is illegal or unsafe. Taking good care of our artists, audiences, staff and spaces is non-negotiable.

We will do all that we can to help your show succeed technically, but there are limits. Remember that there are several shows sharing the same venue with performances one after the other. You have the venue and one technician for one 3 hour technical rehearsal. On performance days you have one technician and 15 minutes to set up and 15 minutes to take down your show. There is minimal indoor storage space. Keep it simple! If there is anything special/unusual/difficult about your show (We have a ten foot tall moose puppet! Our set is made entirely of butterfly wings)! Please let us know right away so we can figure out how/if we can make it work

Outdoors: This is a no/low tech area. If you are going to need anything here, tell us now.

Indoors: A ground plan for Nozhem First Peoples Performance Space is available on request.

You will have approximately 40' x 20' of playing space, festival lighting with a couple of washes, a few areas and one 'special' light, audio playback and one microphone. If you are going to need anything else, tell us now.

NOTE: Smudging is welcome in both indoor and outdoor venues.
